## **The University's development & outlook**

### **1.1 Review of 2023/2024 at Modul University Vienna**

In the Academic Year 2023/24 Modul University Vienna went through a change in the University Board. As reported, the shareholders of Modul University Vienna GmbH had appointed Prof. Dr. Karl Wöber as interim Managing Director after the shareholder changes in 2023. On the one hand, this ensured continuous management following the departure of the previous majority shareholder and managing director, Mr. Suresh Sivagnanam, and on the other hand, also ensured the successful development of the private university under the leadership of the previous rector. Finally, in May 2024, Mr. Andras Viszkievics, who became Commercial Director of Modul University Vienna in August 2023, took over the Managing Director role from Karl Wöber.

In autumn 2024, the OeAD informed Modul University that it was to be considered a “body maintained by a public interest trust” in accordance with Council Implementing Decision (EU) 2022/2506 of 15 December 2022 on measures to protect the Union budget against the rule of law in Hungary and that the OeAD is not permitted to continue the implementation of the existing Erasmus+ grant agreement for the contract year 2023.

Modul University Vienna considers the decision of the European Commission to be incomprehensible and in no way justified. The University expressly disagrees with this decision and will take all necessary steps to contest and reverse it. At the same time, the University management has taken steps so that its students do not suffer any disadvantages as a result. The University ensures that all affected students receive the same financial support as if the funding were provided by the EU. In addition, participation in Erasmus exchange programs with Erasmus+ partner universities remains possible. The University is actively committed to ensure that its students can continue to enjoy unrestricted international mobility.

### **1.2 Implementation of the development plan in 2023/2024**

#### **1.2.1 New Accreditation Submissions**

In 2024, Modul University Vienna submitted three new program proposals to the accreditation agency, AQ Austria. The proposals included one Master program, titled “Master of Science in Data Science for Sustainability”, and two Bachelor programs, titled “Bachelor of Science in Human Resource Management and Business Psychology” and “Bachelor of Arts in International Relations and Sustainability”. The Master program underwent an onsite assessment, and received overall positive oral feedback (we are still awaiting the reviewers’ official feedback). A decision on its approval is expected sometime in 2025.

Looking forward, Modul University Vienna remains dedicated to nurturing the potential of these programs and fostering creativity.

#### **1.2.2 New Research Center**

Modul University Vienna launched a new research center as stipulated in the Development Plan. The Vienna Institute for Global Studies (VIGS Institute) is a non-ideological and nonpolitical research institute set up to create a framework for solving global problems in the second quarter of the 21st Century, like social and environmental sustainability. The Institute adheres to the highest standards of objectivity, scholarship and integrity. The purpose of The VIGS Institute is to build up a network of excellent international scholars that will contribute to the Institute and infuse Modul University with a richer research capacity. The proposed institute will be interdisciplinary in nature, drawing on social

science, business, and international relations. Over the years, the institute will build up research capacities in collaboration with scholars including PhD students, post doc and visiting faculty from around the world. The institute is headed by world renown economist Zoltan Acs who is professor emeritus at George Mason University, USA. Since its launch in spring 2024, several highly acknowledged researchers have been hired to develop The VIGS Institute which is located at weXelerate, Austria's most impactful innovation Ecosystem center in 1020 Vienna, Praterstraße 1.

In addition, several calls for new Associate and Full Professor positions have been launched not only for replacing some leaving faculty, but also for further expanding the knowledge base accommodating the strategy outlined in MU's Development Plan.

### **1.2.3 Launch of the AAS system**

After careful development and continuous feedback from different departments, Modul University Vienna launched its own platform, the Academic Administration System (AAS). The platform is an internal tool for faculty and administration to access information and store various data. It is tailored specifically to suit the needs of Modul University Vienna and has different functions which are useful to its staff. The platform is used alongside other tools such as Anthology (student database), Personio (HR database) and Moodle (learning platform), to better the efficiency of administrative work.

## 2.2 Research

### 2.2.1 Modul University's Research Profile

Modul University Vienna is a truly international institution with a strong emphasis on research. To maintain its excellence, it is essential to advance both the quality of research and teaching simultaneously. The university believes that high-quality research is fundamental to delivering top-tier education and it pursues a research-led teaching approach. As a result, researchers at Modul University Vienna are committed to conducting contemporary, as well as future-oriented basic and applied research. The University's research profile is characterized by a dynamic development of research activities, where researchers of various disciplines are highly innovative and meet the criteria for cutting-edge research. Interdisciplinary research activities shape the research profile of the institution. For example, the areas of information systems, management, tourism, and sustainable development clearly focus on entrepreneurial and societal challenges that are faced in current fast-changing environments.

In 2023/2024, Modul University Vienna established The VIGS Institute (Vienna institute of Global Studies) as a second research center alongside the Research Center in New Media Technology; Further, MU counts The VIGS Institute for academic Schools in Applied Data Science, International Management, Tourism and Service Management, Sustainability, Governance, and Methods. Through these bodies, researchers of several disciplines are actively contributing to the institution's research output. As any other research university, Modul University must cope with an increasingly competitive environment. It is essential to identify and design key research areas and to create a supportive research environment that fosters these

focus areas. To achieve this, it is necessary to develop robust research management and support systems, alongside internal development programs and career pathways. These efforts should be in line with the mission of upholding freedom of teaching and research.

### 2.2.2 Research Focal Areas

Modul University Vienna identified 17 core research areas that were merged into five focal research areas:

1. Digitalization and business transformation
2. Big Data analysis, artificial intelligence, and blockchain
3. Governance for innovation and sustainable development
4. Socioeconomic aspects of climate change
5. Travel behavior, trend, and competition analysis

More information on the 17 core research areas are included in the [Development Plan 2020-2027](#) published on the University’s website.

### 2.2.3 Publications

In the academic year 2023/2024, in total 56 times faculty members of Modul University at the Vienna and Nanjing Campus have contributed to publications, in the form of journal articles, books or reports, book chapters, conference papers, contributions and others.

## 2.3 Library

### 2.3.1 Library on the Vienna Campus

The improvement and expansion of its print- and e-book-collection remained the library's focus in 2023/24. Following an inventory in summer 2023, lost or missing books were identified and withdrawn from the collection. In addition, outdated resources were removed on a larger scale than before. This aspect of the librarian's work will continue to be a priority in the years to come. And while the number of newly added books (print and electronic) remained at the level of previous years, this strategy accounts for a smaller increase in the absolute number of the library's print-media.

In 2023/24, the library continued its work with the cloud-hosted ALMA library management system, provided via and maintained by our partners at OBVSG (Österreichische Bibliothekenverbund und Service Ges.m.b.H.). All the library's new book-purchases (print and electronic) are cataloged and managed via ALMA, which also includes components for the management of library users as well as book loans.

As every year, MU's reporting software PURE was another focal point in the duties of the library. The tool enables MU to keep track of the faculty's research activities and publications. The library maintains the integrity of the data (validation) and extracts the information needed for reporting on all of MU's academic activities.

MU Library is a subscriber of various electronic databases and several journals through which users have access, also remotely, to an ever-growing number of scholarly articles, reports, e-books etc. Three of the licensed databases (ScienceDirect, Springer Compact and Taylor & Francis Online) are so-called "read-and-publish"-packages. They include an open access publishing component providing MU's faculty with OA-publishing opportunities in high-ranked academic journals. The library manages the last part of the publishing workflow by means of an OA-dashboard/article approval service provided by the publishers. Taylor & Francis Online is a new addition to our portfolio and has been available at MU since January 2024. MU's new license makes 2.500 previously unavailable academic journals in the fields of science and technology as well as social sciences and humanities accessible to our users.

As in previous years, the librarians taught library classes (introductions to the library services with a special focus on e-media and catalog search) within MU's bachelor programs (in the context of academic writing courses) in the fall as well as the spring semester. Over 100 students were reached in these roughly 1-hour-classes during the reporting period and received an introduction to the library's services, to catalog and database research.

### 2.3.2 Library on the Nanjing Campus

On campus, students and faculty members have access to the university library resources in the library premises and via <http://lib.njpi.cn> link. On Moodle, there is a demonstration video on how to use the library via the following link: <http://moodle.njpi.cn/course/view.php?id=59>.

In terms of English book acquisition, the application for 523 books was approved by Pujiang in November 2017. Out of these, 312 are on the shelves, 211 are out of print or not available in China.

The library in Nanjing has various online databases and resources which students can utilize, which are listed below:

- **EBSCO Academic Search Ultimate**

NJPI provides full Elton B. Stephens Company (EBSCO) premier database for students of all majors.

- **EBSCO Business Source Ultimate**

Leading Scholarly Full-Text Business Database. This database is an essential tool for business students. It covers all disciplines of business, including marketing, management, accounting, banking, finance and more. In total, 1,109 journals can be accessed – with a few exceptions only – in full-text. EBSCO Business Premier covers only a few journals in the field of tourism, hospitality, leisure and transportation. The application for the subscription of the dedicated Hospitality and Tourism Bundle from EBSCO was rejected by the university.

- **CNKI**

Chinese National Knowledge Infrastructure, leading scholarly database in China. Although the majority of CNKI literature is in Chinese, it also contains considerable resources in English language.

- **Selected additional subscriptions**

NJPI subscribes to the following journals and resources: Tourism Economics; Cornell Hospitality Quarterly; Journal of Travel Research. The three subscriptions allow for electronic access and printed copies.

- **Resources subscribed by MUV library**

MSN faculty and staff are also granted the access to the online resources subscribed by MUV library by using their MUV email accounts.

## 2.4 Internationalization

### 2.4.1 Internationalization Strategy

Modul University Vienna has consistently pursued a strong international strategy since its inception.

Located in a globally diverse city, Modul University Vienna boasts an international student body comprising over 70% of its total enrollment, attracting students from countries across the globe. In the 2023/2024 academic year, international students made up 83.48% of the student body, marking an increase of +4.87% compared to the previous year.

Not only is the student background very international, but also the staff and faculty background. Since the operating language is English, staff and faculty also come from many different countries, enriching the University with their cultural differences. The internationally oriented curriculum and study programs and the integration of international aspects in the teaching and learning process also manifest internationalization at Modul University Vienna. Furthermore, the incoming and outgoing mobility of students, faculty and staff is encouraged.

Modul University Vienna lives this intercultural and international diversity on campus by practicing internationalization at home. The Orientation Week, which precedes the start of each semester, helps integrate and transition new students for a smooth start to this intercultural setup. In 2023/2024, the Student Services Centre and Academic Office was particularly active in supporting all students, but more specifically international students who were far away from home. In Fall 2024, 604 € were donated to Doctors Without Borders, raised through international day, where students from 11 countries participated and sold their national dishes.

Charitable acts in an international context are also encouraged as part of students' class activities, for example as part of the Project Management class, students were divided into teams and asked to organize events to raise money for a charity of their choice. The events took place on and off campus and were supported by the Student Service Center during their annual "Christmas on Campus event". The selected charities included Roten Nasen, Emergency Austria, TierQuatier, Make a Wish, SOS Kinderdorf and Fair Trained Assistenzhunde.

### 2.5.3. Collaboration with Professional Environment and Relevant Social Players

Modul University Vienna highly values its collaboration with the professional sector and the key stakeholders. As a result, internships are mandatory for the BBA in Tourism and Hospitality Management, BBA in Tourism and Hotel Management and Operations, the BSc in Applied Data Science and the BSc in International Management with Professional Experience programs and is optional in the MSc programs. This helps students obtaining valuable practical training and knowledge, and this also tightens the bonds between Modul University and the industry. Up to now, Modul University has maintained partnerships with institutions and companies for internship opportunities for BBA, BSc and MSc students. Among these national and international partners are the Österreich Werbung (Austria's national tourism agency), the UN Tourism and many hotels and resorts from all over the world. Additional internship partners are continuously explored and added to the MU internship platform. At the moment, there are around 250 partner institutions that offer internship opportunities to our students. The Student Services Center also helps students in finding part-time jobs in their field of studies and maintains contacts with the alumni of

Modul University. Moreover, the Industry Advisory Boards of the different Schools also form part of the university's strategy of collaboration.

Furthermore, close ties connect the University's School of Tourism and Hospitality Management with City Destinations Alliance (CityDNA, previously 'European Cities Marketing') and the European Travel Commission (ETC). Since fall 2013, the President of Modul University Vienna is also chairing the Austrian association of Private Universities (ÖPUK), which represents all Austrian private higher education institutions, and he is a member of the executive board of the European Union of Private Higher Education (EUPHE) since its foundation and elected First Vice President since 2024. On the Nanjing Campus, the Career Service Center has developed ties with different organizations and companies in the hospitality field. It helps the BBA students in finding positions for their compulsory internship.

### 3.3. Finance Figures

In order to improve transparency, as well as the global quality management of Modul University, the annual accounts are being checked by an external auditor. The financial report for 2023/2024 will be provided as soon as it is available, as it has not been finalized at the submission deadline for the annual report 2023/2024.

## 4. Measures for the promotion of young academics and scientists

### 4.1. Documentation of the Selection and Promotion Procedures

#### 4.1.1. On the Vienna campus

In 2023/2024, several new faculty members started working at Modul University Vienna. Following a hiring process led by a Search Committee, a new Associate Professor, Josef-Peter Schögggl, was hired and started at the School of Sustainability, Governance, and Methods in September 2024. In another hiring process by the Head of the School of Data Science, led to the recruitment of Assistant Professor Dr. Farzaneh Ghorbani, who started in March 2023. The University also recruited two new junior researchers and PhD students, Alaitz Aritzta and Yuqing (Selina) Xie, who started their Researcher and Lecturer positions in September 2024.

Assistant Professor Dr. Christian Weismayer was promoted to Associate Professor after the successful evaluation of a promotion committee led by Prof. Dr. Astrid Dickinger on 22<sup>nd</sup> of January 2024. Assistant Professor Dr. Bozana Zekan was promoted to Associate Professor after the successful evaluation of a promotion committee led by Prof. Dr. Gunther Maier on 13<sup>th</sup> of June 2024.

Associate Professor Dr. Ulrich Gunter was promoted to Full Professor after the successful evaluation of a promotion committee led by Prof. Dr. Udo Wagner on 7<sup>th</sup> of May 2024.

Dr. Karl Weinmayer handed in an application for promotion as Associate Professor on 3<sup>rd</sup> of July 2023. The promotion committee led by Prof. Dr. Denis Helic has ceased its work on the 22<sup>nd</sup> of January 2024.

#### 4.1.2. On the Nanjing campus

There are no updates on the Nanjing campus during 2023-2024.

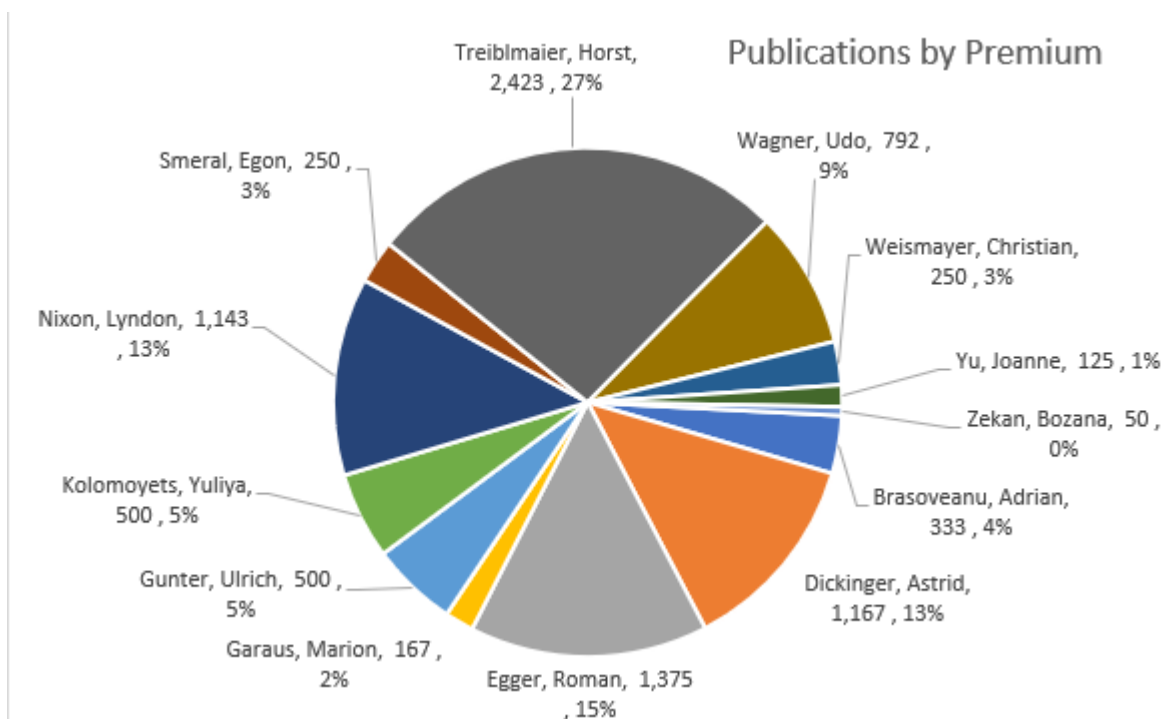

## 4.2. Activities to Promote Young Researchers and Other Human Resource Development Activities

During the reporting period, Modul University Vienna offered two fully paid positions for young researchers and lecturers, giving them not only the possibility to focus on their doctoral thesis, but also including them in the scientific community, encouraging them to visit international congresses and to take part in research projects. Also, nine young scientists were included in the scientific community at Modul University as researchers on projects. Modul University also supports publications in renowned peer-reviewed journals for all faculty with premiums for publications.

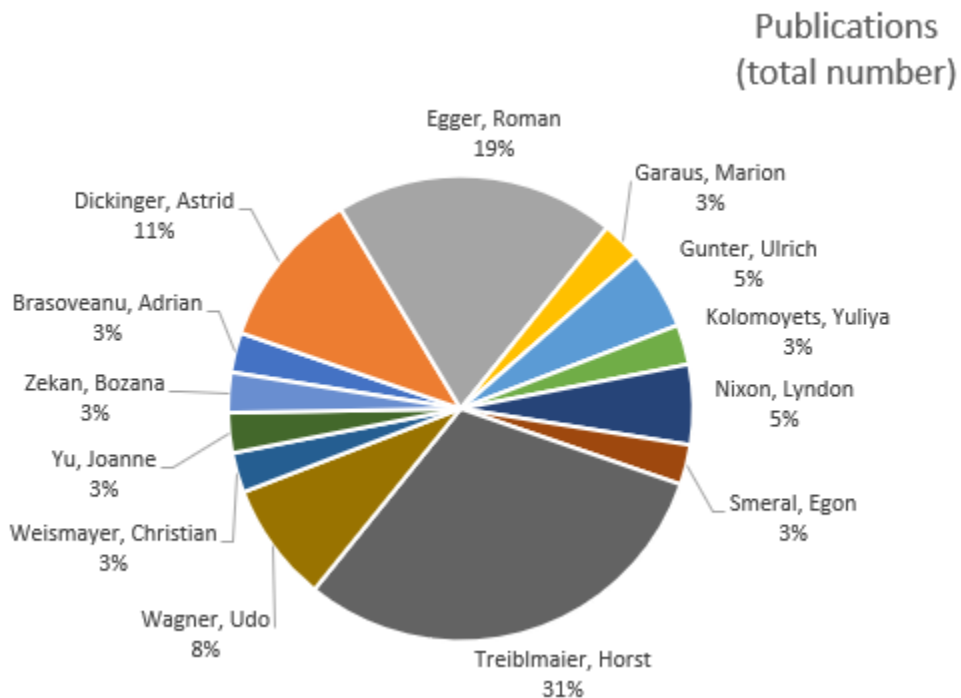

The premium for A-rated journal amounts to € 1,000 (for a single author), the premium for B-rated journals to € 500 (for a single author). In 2023/2024, 19 premiums for A-rated journals and 24 for B-rated journals were given for the total sum of 11,529 EUR.

Modul University Vienna also uses a research publication documentation database (PURE). Both platforms help to make Modul University's research success more visible.

## 5. Measures for Gender Equality

Modul University is dedicated to promoting gender equality among its staff and faculty, upholding its responsibility as an employer and in compliance with the law. In 2015, the university established the Inclusion and Diversity Committee (IDC) in order to strengthen Modul University Vienna's commitment to diversity management, addressing a broad range of issues including gender equality, special needs, religious freedom, etc. Elected by the University Senate, the IDC also reviews the implementation of the [Affirmative Action Plan](#) for Managing Inclusion and Diversity, which was last reviewed in November 2020. This document states the commitments and guiding principles of Modul University Vienna in terms of gender equality and more generally, of diversity.
